KIA ILLULIAN

Kia Illulian is the Co-Founder of H2rOse, LLC which has started a unique and fast growing line of beverages called H2rOse. H2rOse is a specialty beverage uniquely made of rose water, saffron and other natural ingredients. Just as rose water is commonly used to cleanse the skin as a topical skin toner (also reducing wrinkles and tightening pores), drinking rose water also purifies the body thanks to the flavonoids, tannins and other essential vitamins it contains. Rose water is also a mild sedative, helps reduce temporary depression and enhances the

mood; it aids with the relief of nervous tensions and soothes the mind. Saffron is another natural remedy that supports many functions. Saffron eases digestion, soothes irritated stomachs and compulsive desires to eat. The combination of both of these distinct ingredients and the refreshing taste of H2rOse provides you with a delicious beverage that will allow you to reap the benefits of beauty and health from within. Stop by your local Gelson's today and try one of the four distinct flavors. **323.653.8500, drinkh2rose.com**
